

BRIDGES

FLORIDA STRUCTURAL STEEL

FABRICATION AND ERECTION

Florida Structural Steel is AISC Certified for fabrication of complex structures, minor bridges, and major bridges, including fracture critical endorsement. In-house services include full assembly, coatings, custom delivery, and site erection. In addition to specialty hauling capability, FSS can ship from our on-site rail spur, and is in immediate proximity to Tampa's seaport terminals, providing for delivery opportunities anywhere in the USA and overseas.
